HOW TO RUN A SESSION

Scan to make training orders

autobagger-barcode-printer-picker-t.vercel.app

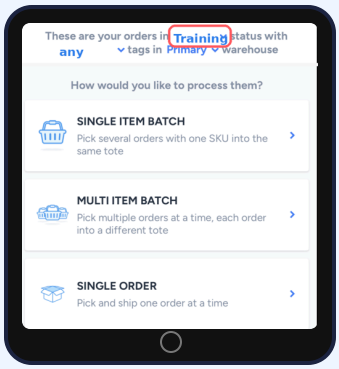

1

Scan the code. Tap **Create**.

Pick a preset. Type how many orders.

2

On the iPad, set status to **Training**.

Customer **SHIPBOTS**. Then tap **Single Order** or **Multi Item Batch**.

3

Pick the candy into a tote.

Scan each wrapper. **Do not print a label.**

4

Done? Walk away.

The cart resets itself in **30 min**. Candy goes back, orders close.
